DOUG YELTON NAMED COMMERCIAL SALES REPRESENTATIVE FOR ZENITH AVIATION

May 4, 2015 – Fredericksburg, VA – Doug Yelton has been named Commercial Sales Representative for Zenith Aviation.

Yelton comes to Zenith from AvCraft Technical Services where he served as Logistics Manager. After leaving the US Air Force, where he served as an Inventory Management Specialist, Yelton transitioned to commercial aviation with SAAB Aircraft of America where he held several operations positions including Customer Administrator, Pricing Analyst and Procurement Specialist. He also worked as an AOG Coordinator at Atlantic Coast Airlines.

In his new position with Zenith Yelton will be responsible for maintaining and growing Zenith's relationships with current clients, identifying new clients and opportunities to increase inventory holdings through acquisitions and consignments. Additionally, because of the depth of his experience with line maintenance and working in MRO facilities, Yelton will be charged with helping clients find creative solutions to complex problems within their organizations.

Scott Nordstrom, Zenith's Senior Vice President Sales and Marketing, said that "the addition of Doug to our sales team strengthens our corporate experience and knowledge in the regional aircraft sector. He will be a vital part of Zenith's growth going forward."

ZENITH AVIATION CORPORATE BACKGROUNDER

Zenith Aviation was formed in 2002 when the company was awarded the marketing and distribution rights for the Dornier 328 corporate and regional airline aircraft, both the turbine-powered and turboprop models.

Since 2012, Zenith has invested more than \$3 million to increase the size of its secure, climate-controlled warehouse, bringing the total size to 50,000 square feet, including a state-of-the-art parts automated inventory storage and retrieval system to improve storage capabilities and operational efficiencies.

Zenith adheres to the highest quality management systems in the industry and has earned certifications in both the AS9120 Rev. A and ISO 9001:2008 quality standards. The company retains these certifications through annual audits conducted by BSI, the industry leading ISO 9001 certification body, as well as through regular on-site client audits.

Zenith has more than 46,000 line items currently in stock. In addition to the Dornier 328 and 228, the company stocks parts for Bombardier, Embraer, Agusta, ATR, Bell Helicopter and Hawker Beechcraft aircraft. Zenith is also experienced in providing third-party logistics support for companies that require turnkey storage solutions for their parts and supply needs.

Zenith Aviation is based in Fredericksburg, VA, is a certified HUBZone provider, and is centrally located to serve a wide range of customers within the National Capital Region and worldwide.
